

# LYON® LOCKER SOLUTIONS

## THE STANDARD OF EXCELLENCE

The familiar Lyon number plate can be found in virtually every city and town in America.

Wherever you go—on campus or on the shop floor, in police, fire and municipal buildings, on military bases, in hospitals and nursing homes, or the back rooms of retail establishments—

The familiar number plate on each Lyon locker door has represented a commitment to quality and product innovation for generations of students and workers alike.

### ADA REQUIREMENTS FOR LOCKERS

1. Doors must be able to be opened without a twisting or clasping motion. The standard test for compliance is if the door can be opened with closed fingers.  
*A recessed handle with a lockbar or single point is compliant.*
2. The locker bottom must be a minimum of 15" from the finished floor. This is accomplished by locating a shelf 12" from the bottom of the locker. Additional shelves can be purchased separately, contact Lyon Customer Service. The shelf is acceptable as the locker bottom and when the locker is placed on a minimum 3" base the shelf/bottom is a minimum of 15" from the finished floor.
3. The locker shelf or hooks can not exceed 48" from the finished floor. The shelf and hooks can be relocated during set-up.

*Contact Lyon Customer Service for more ADA product specs, and project support on choosing the best locker solution for your project.*
